Louis Kopp Will Be Next Fire Chief

Louis W. Kopp will be Nevada City's next fire chief, succeeding Byron Landrigan, whose term expires August 1.

The firemen held their annual election Wednesday evening and elected the following firemen's delegates: R. L. P. Bieglow, Howard Penrose, and Dick Goyne. Alternate will be Jim Penrose. By virtue of his office, the chief elect becomes president of the fire delegates.

Kopp was endorsed for chief engineer by the Pennsylvania Engine company, No. 2. No. 2 company also endorsed the nominee for assistant chief. Hose company No. 1, elected Howard Penrose foreman, Myers Mobley first assistant, R. Wright second assistant. Elza Kilroy was re-elected to be secretary and William Gracey, treasurer.

The formal election of fire chief takes place the last Monday in July and the chief and his assistant are sworn into office before the city clerk on the first Monday in August at 12 o'clock noon.

GRAHHAM BROS. SINK NEW SHAFT ON SUGAR LOAF

By EDWIN C. UREN

Graham Brothers are sinking a new incline shaft at the lower end of the old Manzanita pit, north of Nevada City, to connect with their old workings from the Odin, on the north side of Sugar Loaf.

They have worked this property for over twenty-seven years and had advanced their workings 1700 feet along the Odin and Manzanita channels when the blockade from snow came in February of this year.

The workings were kept unwatered by means of an ejector operated by water from the Snow Mountain ditch. A stoppage of four or five days would not have offered a serious handicap, but over a month's lack of power as a result of the N. I. D. Company's inability to keep the ditches open resulted in the complete loss of the tunnel and underground equipment.

An effort was made to reopen the old workings ,but as the tunnel was heavily timbered through swelling grainte ,it was found that the ground had become so thoroughly saturated with water that the task was hopeless.

Graham Brothers estimate their loss at more than $20,000 and it will be necessary to do a large amount of dead work in order to reach their objective again.

The old incline and tunnel entered the ridge 700 feet northwest of the old Nebraska incline at the confluence of two branches of the Manzanite channel. Here, within a radius of 700 feet are seven shafts, some of which were sunk as early as 1852.

The Nabraska incline, sunk in 1858, lies only 400 feet north of the Manzanita pit, which can be seen so plainly on entering the city from the south. From this shaft in eighteen months, between 1858 and 1860 $353,000 was taken and it is said that this portion of the channel, in 3000 feet, yielded over $3,000,000, being one of the richest gravel deposits ever found in the state.

SUPERVISORS GRANT 18 BEER LICENSES

The county supervisors at their session in the court house have granted eleven licenses to sell beer on their permises and seven to dealers who will sell beer to be consumed off their premises. The number applying for licenses which take effect June 15, was not so many as had been anticipated. These licenses are granted only to dealers outside incorporated cities.

SENIOR BALL TONIGHT IN REDMEN'S HALL

The annual high school event, the Senior ball, which is the year's climax to all social events, will be given this evening in Redmen's hall, beginning at 9 o'clock. 'Dancing, with Myers Mobley's Sierra Naders providing the music, will continue from 9 o'clock to 1 o'clock in the morning.

Mr. and Mrs. G. C. White and children of San Francisco are here visiting Mr. and Mrs. James Brady. Mrs. White is a niece of Mr. Brady.

PLANK DIRECTS RAGON OPENING

Walter E. Plank, of San Francisco, has arrived in Nevada City to superintend operations at the Ragon mine, which is being developed by the Comtsock Gold Point Mines company. He is an engineer of extensive experience, familiar with California mining conditions. Rapid and efficient proving up of the mine is expected under his direction.

Much progress already has been made at the Ragon property. The power line is in process of construction, water has been piped from a spring above the mine and good headway has been made in clearing the old shaft mouth. Additional equipment has been ordered and it is hoped that production of a large block of ore previously exposed in the mine may begin in the near future ,further development work proceeding at the same time.

SPRAY MACHINE TO KILL PESTS ON CITY'S TREES

The spraying outfit purchased recently by Nevada City from the state department of Agriculture is being used this week in an effort to save elm trees many of which were planted by pioneers, long since passed on.

Some of the oldest, at the W. E. Wright home, were probably planted by the late W. H. Crawford, one time Nevada City merchant who always retained a keen interest in Nevada City; one at the G. M. Bettles home, about 16 or 20 at E. M. Rector's home, planted by Dr. R. M. Hunt, pioneer physician, at G. M. Rector home probably planted by Mr. Tower —Wells Fargo company agent. At Mrs. B. F. Preston's residence, planted by her father, the late M. L. Marsh, the City Library memorial tree dedicated by the Elks in memory of late State Senator E. M. Preston, prominent citizen and banker also an Exalted Ruler of the local Elks lodge; through his success in securing a reform school Preston Reform school was named after him. A son now survives him in Berkeley. Another pretty elm stands on the Nevada City high school grounds.

Other trees of note are the elms at the Washington grammar school; R. J. Bennetts home, planted by Dr. Muller; A. Hartung, by A. Hartung; L. M. Sukeforth; Dr. Sawyer; Chas. Mulloy; E. J. N. Ott, George L. Jones, George Day, Fred Searles, W. H. Martin, the latter two early pioneers now deceased.

The elm leaf beetle is a Japanese insect that has spread very rapidly over California. The pest once in a community devours the leaves of the elm tree, lays eggs for the coming year and dies. In the spring a new crop of beetles hatch and eat the tender young leaves again. After a few such experiences the trees although extremely hardy, are unable to survive.

The machine purchased by Nevada City, is installed on a four wheeled trailer and is composed of a tank, engine and pump with 400 feet of hose. It is towed by the city truck from place to place. The pump is under 500 pounds pressure and with the spray solution makes short work of the eggs, larvae and bettles.

It is expected that the spraying machine will be taken to Grass Valley to spray the shade trees there.

Bryon Jaynes was hired by Nevada City to handle the spraying machine.

PLACER BILL UP TO GOV. ROLPH

Governor Rolph has before him Senate bill No. 480, which permits the formation of the placer mining districts, for signature.

This bill is essential to assist placer ground owners to organize and finance development.

Every citizen of the Mother Lode should write today and ask the Governor to sign that bill, for it means the production of hundreds of thousands of ounces of gold from long dormant gravel claims.

James D. Stewart, mining engineer of Auburn is writing to hundreds of those whose interests are centered in placer claims asking them to wire or write the Governor immediately.

This bill passed the state Senate unanimously and was almost unanimous in the Assembly.

The time to ask Governor Rolph to sign this bill, is NOW.

LAVA CAP SOON TO CUT STATION

The Lava Cap mine south east of Nevada City will have cut a station at the 600 foot level by the end of this week.

They will continue sinking to the 850 foot level below the collar.

Arrangements are being made to install a double drum hoist and large compressor so as to prepare for extensive development work when the shaft is completed.

Fifteen men are now employed at the property in the sinking operations.

It is fully expected that, with the past history of this property, it will turn out to be one of the largest producing mines in this camp.

OLYMPIA PARK OPENS DANCE SERIES SATURDAY

The dancing season will open tomorrow evening at Olympia Park with a great big ball, with colored lights, cabaret singers and crooners and all the accessories of a grand good time.

The music will be provided by Lee Hinman's Olympia Park boys. A public address and amplifier system has been provided for sending abroad the latest collegiate dance music.

On Sunday there will be vaudeville and revue featuring a group of pretty Olympian mermaids, some of whom are said to be equatie, and all of whom are exotie.

Eddie Norman will be master of ceremonies for this show which comprises eighteen scintillating gems of the stage. There will also be Sunday afternoon dances, which have proved such a popular attraction at other Sierra resorts.

DISMANTLING BUILDING

The building owned jointly by William (Laddie) Peard and the Native Sons of the Golden West at the corner of Main and Pine streets is being partly dismantled by Mr. Russel under the permission of the owners, who owns property just back of it.

Arlington C. Duke has about completed putting on the second coat of paint for Mr. and Mrs. Garfield Robson's beautiful home on Broad st.

OFFICE FRONTS BEAM IN NEW PAINT COAT

William B. Celio has employed Ed Martine in painting the fronts of three of his properties on Broad street. The Nugget office has a bright shining new face of French gray. The P. G. & E. office smiles forth in cream and brown trimmings, while the Club Pool beams with a fresh front of light buff with light brown trim. Other merchants along Broad st., are hoping their landlords will be moved by the gentle springtime impulse.

In addition to painting the Nugget office, Mr. Celio has constructed an annex to the building in the rear to care for this newspaper's expanding activities.

DEADMAN'S FLAT MINES REOPEN

Deadman's Flat, extending roughly from near the edge of Grass Valley three or four miles to the southeast, has recently taken on new life in the opening of a number of mining claims in that area.

Sinking of a new 400-foot shaft at a point several hundred yards from the old Alcade shaft has been put under way by M. McGuire, superintendent. The surface machinery has been moved to a new shaft site from the abandoned shaft and a headframe is now under the course of construction. Operations are expected to get under way within the month. The J. Berger interests of Los Angeles are financing the project.

Development is taking place at the Normande mine in Deadman's Flat under the superintendency of A. C. Crosby.

The West Point mine, the entrance to which is a 750-foot tunnel, is now being operated by E. R. Hamilton and Jerry Anderson, both of Grass Valley. The ore taken out is processed at the Buffington custom mill operated by McCraney and Bettles west of Nevada City.

The South Star Mining Company, organized by C. T. Eastman, is opening the old South Star mine. R. J. Polk is in charge of a small crew clearing the old shaft.

Robert Jones, with several assistants is now working the Oakdale mine on the eastern rim of Deadman's Flat basin. The men have a 70 foot shaft sunk and have brought up some good specimens of sulphide ore.

CALIF. BETTER OFF THAN MOST SISTER STATES

SACRAMENTO, June 8—(UP)—Serious as California's financial position may appear from a close-up view ,still in the light of comparison this state stands head and shoulders above the great majority of other states, according to Rolland A. Vandegrift, director of finance.

"The fact is," Vandegrift said, "California has survived the depression amazingly well. True, our financial status may appear somewhat discouraging. But when you compare it with other states you get a different viewpoint."

The finance director cited numerous figures to prove his point.

The state's deficit, up to the end of the present biennium amounts to $1.64 per capita. New York's is $114, 403,004 or $9.07 per capita; North Carolina's $12,690,000 or $4 per capita; Kentucky, $4,000,000 or $2.50 per capita. Few states had as low a deficit per capita as California.

California's bonded indebtedness at the close of 1930 was $15.91 per capita. This figure does not include self supporting bonds. New York's was $30.56; Massachusetts, $25.15; Illinois, $27.04; Oregon, $64.29 and Arkansas, $63.52. The average of all states was $17.89.

"So successful has California been," Vandegrift said, "that other states are asking us about our tax system.

"It is worthy of note that this record was achieved under our separation which, it is now proposed, we abandon. It also to be noted that other states which have piled up huge deficits and bonded indebtedness do not operate under that system."

Annual per capita cost of state government for the forthcoming two years beginning July 1, is $19.22 or lower than it has been in this state since 1927.

Per capita cost in 1931-33 biennium was $23.06; 1929-31, $22.75; 1927-29, $19.47; 1925-27, $17.60 and 1923-25, $15.13.

The delightful concert played Wednesday evening by the Nevada City high school band on the National hotel porch was greatly enjoyed by the townspeople.

Mrs. Fred Searls, Sr., who spends the winters in the bay region, has returned to her home in Nevada City to remain until fall.

C. C. C. Army In Tahoe Area Now Totals 1,000

By tomorrow night almost 1,000 C. C. C. men will be established and ready for work in the several camps that have been building during the last three weeks in the Tahoe National Forest Area.

Supervisor R. L. P. Bigelow announced that 170 men wil larive at the Sattley camp, iSerra City, today or tomorrow, swelling the number in that camp to approximately 220.

In the camp at Bloomfield a complete contingent of 212 men are already established. At Bear Valley it is expected to complete the quota another 70 are no wemployed and at that camp shortly. At the Miller Ranch camp near Camptonville 27 men are to begin building camp, and 21 local recruits will join them shortly. The same figures and same conditions attend the camp at Oak Ranch near Downieville.

The state camp adjacent to Nevada City yesterday received a contingent of 170 men from Fort Knox, Kentucky. There were already approximately 50 men there. These men are in charge of W. F. Sharp and will be largely employed in state and national forestry work. This camp is under the general supervision of the state forestry department.

The army of 1,000 forestry workers will be a little more than half ofthose who are still expected. The total number of men allotted originally to the Tahoe National Forest area was 1,800.

HOGE TO SINK SHAFT TO 1000

At the Hoge Development Company mine plans are to start sinking the 800 foot shaft Monday to the 1,000 foot level.

Ore on the 800 foot level has been contacted and development work is making favorable progress.

When the 1,000 foot level is reached a station will be cut and another 50 feet will be sunk for a sump.

The known ore bodies will be opened up at the 1,000 foot level giving the property a large reserve for steady long time milling.

The Hoge mine has been runnnig three shifts at the mill for several months, having 50 ton capacity mill and milling 60 tons per twenty-four hour day.

Arthur W. Hoge is superintendent and O. E. Schiffner general manager.

CANADA HILL WATER NOW BELOW CAVE IN

First open ground was reached this week in the old shaft of the Canada Hill mine, now being rehabilitated by West Mines Corporation. The opening was found at 220 feet. The brow was found caved here, but arched and evidently well supported while two sets below this point the old timbers could be seen supporting the uncaved portion of the brow.

It is believed that from now on open shaft will be found and that the slow and costly job of recovering the caved portion of the shaft is at an end. With the problem reduced to pumping and repairs increased speed may be looked for. Diminished water is noticeable and the large 300-gallon pump is ready for installation. Orlando McCraney, president of West Mine's expressed satisfaction with the progress made.

JURY TO TRY DRIVER FOR RECKLESSNESS

Charles Nichols, Grass Valley painter, charged with reckless driving, will face a jury trial June 15th before Judge Oscar Winburn in the justice's court.

Nichols pleaded not guilty to the charge and asked for a jury trial. Nichols is charged with reckless driving by Inspector Frank Quinn of the state highway patrol. Two

GARDEN CLUB IS GUEST OF NEVADA CITY GARDENS

The annual meeting of the Roseville Garden Club was held for the third successive year on the grounds of the Felix Gillet Nursery. Members of other garden clubs in Placer county and other points in Northern California joined with them, six carloads coming from Sacramento and one from Vacaville.

Talks were made by Mrs. F. A. Lewis of Roseville secretary of the California Federated Garden Clubs and Mrs. J. N. Keemer of Sacramento chairman of the Northern Section of the C. F. C. clubs.

The secretary of the Sacramento Garden Club also addressed the gathering. After a picnic lunch on the grounds of the Gillet Nursery, visits were made to the lovely grounds of Doctor Tickell, next the spacious and antrancing garden of Wade Armstrong w... viewed, thence to the naturalistic garden of restfull charm developed by Mrs. C. J. Rector and finally Postmaster Scaddens splendid efforts as a gardener were taken in. On the way into Nevada City the well designed grounds of F. Prisk were much enjoyed by th emore than sixty guests.

They all were so charmed by the natural beauties and beautiful gardens of this section that they voted to hold their annual meeting here each year and next year hope to see many more gardens of this section. Most graciously the Club elected Mr. and Mrs. C. E. Parsons as honorary members.

NOTICES FILED TO HOLD MINE CLAIMS

The following persons have filed their "intentions to hold" their mining claims, in accordance with the act of Congress;

Flat Ledge, Flat Ledge Ext., Fraction and Glencoe Ext., gtz—R. N. McCormack, Canada Hill Mining District.

South Ext., Morning Star qtz—T. G. Curnow, in Badger Hill Mining District.

Fisher Maiden, Mother Lode, Mt. Oro, Pot Hole, Rescue and Gold Bar qtz., White Wings placer— George M. Carey and A. J. Carey, Mt., Oro Mining District.

Mt. Emly Margaretto, qtz—Charles Faulkner, Rough and Ready Mining District.

Harvester, placer—John B. Bennett, Canada Hill Mining District.

County Recorder Sam Clark states that up to the present time, claim holders are a little slow in making their "declarations to hold" their properties as required by the moratorium approved by President Roosevelt May 18. He hopes that they will not put this off until the last day but will get busy at once and attend to it.

MEASURES ON BALLOT WILL BE DISCUSSED

Members of the Women's Civic

Liver Sufferers

Don't be misled any longer. Calomel, salts, oils, mineral waters, laxative pills, herb teas, powders, etc., have no effect whatever on the liver. There are only two generally recognized substances which actually cause a sluggish liver to increase its production of bile. Sargon Soft Mass Pills contain both of them.

You can't feel well and strong unless your liver furnishes plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—Constipation, gas, sour stomach, headaches and nervousness follow.

Unless you have tried Sargon Soft Mass Pills you can have no idea of their effect—You feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly.

Only 60c for a full 30-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Georgia.—(adv.)

THE GOLD STANDARD

By Judge Oscar E. Winburn

Summary of an address recently delivered in Grass Valley

The definition of the gold standard is not difficult to explain. But when a country goes off the gold standard, that presents a serious problem which may be of some benefits, or may create chaos.

Before I go into the question, it might be well that I tell you something about the words "inflation" and "deflation," which have appeared hundreds of times in our newspapers.

Inflate means to build up. Deflate means to tear down.

A homely illustration might explain my point of view.

If you are driving an automobile, and you notice that one tire is almost flat, you naturally drive to the nearest service station, and have the attendant put enough air in the tire to bring that tire up the standard tire pressure. That is inflation.

Then you drive a few miles further on and become aware that the same tire has lost some of its air. The losing of the standard air pressure in the tire is deflation.

Then you get out of the car, take off the tire and find a nail protruding. You get your tire repair kit and do some repair work. Then convinced that you have done a good job, you get out the tire pump and proceed to pump up the tire to the standard air pressure. The pumping process is inflation. When the tire has received the necessary air pressure it is up to standard.

When a country goes off the standard of gold currency it has deflated its monetery standard. If it ever goes back to gold as its monetary standard, it has inflated its currency.

Now I will take up briefly an explanation of what is known as the Gold Standard.

The metal gold is the only substance of which the earth is composed that is freely accepted for all services and in exchange for other property by every race in the world.

In other words it is the world's standard of values; the one commodity the market for which cannot be glutted. It is the one substance that is everywhere accepted not only without compulsion and without limit as to quantity.

As a mineral it has a history that is probably almost as old as the human race, that has fought for its possession with so much avidity.

I am not going into statistics as to gold production, but I will attempt to explain the gold standard in a few mords.

The soldiers in the wars who marched in front of the ranks carrying the American flag are called standard-bearers. The flag which they carry is the emblem and represents the standard of American policies.

Without this standard and our love and devotion to it there would be no American standard to which we could cling.

When a child cries out in the night for mother to bring a drink of water; and when the child rushes from school to tell the mother that Jhonny Jones has struck him in the nose; the mother stands out to the child as his standard of protection and sympathy.

A standard is something that we can hitch onto with confidence.

Months before America went off the gold standard, wages in this district were reduced ten per cent. This ten per cent reduction not only meant a smaller income for the worker, but it meant that local merchants would receive a reduction of not less than ten per cent of the money which they formerly received over their counters. The churches must expect a reduction in contributions. The customary charitable agencies must expect a corresponding reduction in income.

The gold is here in our district, and the man who digs it out of the ground is entitled to his just share, so that he may build his home, feed his family, send his children to college, save enough for he and his wife's old age, and live in peace during their last days on this earth.

SPANISH MINE PUTS IN CYANIDE TANKS

Work of building the two mile tramway at the Spanish mine, is under way and is progressing at a satisfactory rate.

A crew of men are also erecting cyanide tanks and remodeling the mill.

The Spanish mine has used the flotation system but found that the surface ore was oxidized and requires the old cyanide process. Accordingly the plant is being changed over in order to use the flotation process in conjunction with the cyaniding method in this way, increasing gold recovery.

The Meddlesome Mind

Daily events disturb my calm
And fill me with amaze;
It seems to me the cock-eyed world
Should stop and mend its ways.
If I, myself could take a hand,
I'd force great men—and others
To do away with silly wars
And act like human brothers.

The slime light shining fiercely now
On those whom once we trusted,
Has changed our confidence to doubt
And reputations busted;
I'd like to fix that lurid light,
So. when it shone on men,
It would transmute their base alloy
And make good gold of them.

Small things distract my train of thought
Whereat it jumps the track
And runs like mad in circles wide
When I have put it back;
I want to tear the bill boards down
And sweep the sidewalks clean,
I want to banish cold deceit
And all things sly and mean.

I don't know why I want to fix
All things afar and near,
Some thoughts hatched in my meddling brain
Are quite absurdly queer;
For instance, just last night I thought
Now wouldn't it be dandy,
If I could banish checkered shawls
And purchase shorts for Gandi! !

—A. MERRIAM CONNER.

MINING DAY AT STATE FAIR IS SET FOR SEPT. 8

SACRAMENTO, June 8—Once again the mining industry is to come into its own at the Cailfornia State Fair. Through the efforts of the Mining Department of the Sacramento Chamber of Commerce, Friday, September 8th, has been officially designated "California Mining Day."

A varied program of activities for this occasion is being planned by the Chamber's Mining Department. A feature of the day is to be a double-jack hand drilling contest, with the best team from each of the mining counties competing for honors. $225 in prices is to be awarded in this competition—a $100 first price, $75, second and $50 third. A team entry fee of $20 will be charged. All entries must be received not later than August 1, 1933.

A mining luncheon at the fair grounds is also being planned, with a noted speaker for this occasion. Clarence E. Jarvis of the Chamber's Mining Committee is Chairman of the Speakers' Committee and Sam Hamilton is Chairman of the Mining Day arrangements. J. C. Tobey is chairman of the Mining Department.

All mining counties in the state of California will be requested to feature mining in their exhibits at the fair as well as to enter a team in the hand drilling contest.

An investigation is being extended to the State of Nevada to participate in the events on Mining Day.

THE PAY STREAK

By H. M. L.

A week or two ago there appeared in the Nugget, an editorial entitled "Tin Cans," mildly protesting against the practice of dumping tin cans and other refuse in the nearest wayside gully or along trails and roads leading into this city.

Apparently those addicted to the lazy habit of littering the land scape were for a short time somewhat wroth that this ancient practice, older, as far as human debris is concerned ,than the history of civilization, should be censured. Roused from the sound sleep of the lethargie, annoyed for a moment, the tin canners have dropped back to slumber again.

But it becomes a question whether people so indifferent to community welfare, so dead to civic decency, should be permitted to sleep. The tin cans really should be made audible, creating an incessant din, like the old fashioned charivari, so that these sound sleepers can get no sleep, until the vexing tin cans are properly interred or dumped in at the city dump.

Once the tim cans become thoroughly master this fair city, the chief feature of landscape, the golden reputation of Nevada City becomes tin plated, our hospitality becomes "canned" hospitality, our splendid traditions are monumented by our heaps of cans. "Look what our forefathers left us," pointing to heaps of cans, here and there. "Do see this pile of M. J. B's, Booth's, S. & W's, salad oil tins, and kerosene cans? Ah! we have added all that to the pile that papa and grandpapa left us since they went to slumber under the pines."

Beautiful Nevada City, encircled by great hills clothed in the evergreen of pine trees, bedecked with blooming gardens, pretty lawns, neat houses, and all but surrounded by heaps of tin cans!

We suggest a campanion day for Donation Day, to fall sometime in the Spring of the year, Tin Can Day, when the Boy Scouts, the Chamber of Commerce, patriotic and fraternal organizations hold a great rally and tin can drive, which shall end in driving all the tin can heaps into the oblivion of the city dump.

o

STANDARD MINE TO RESUME OPERATIONS

Mr. Lawson, assistant manager, of the Standard mine near Downieville is now installing a lot of machinery that will put this property in first class shape for active operation.

The Standard mine has a good past production record and is located in one of the rich gold bearing sections of Sierra county.

"Loves Dream"

May we dwell in a vast world of
Peacefulness,
Where the sky is of heavenly hue,
There we shall find that secret key
To a garden where dreams come
true.

Where the flowers of love and of
Friendship; dear—
Forever may perfume the breeze,
As the years glide along we
Shall sing life's song,
Filled with thoughts of sweet
memories.

BERTHA JOY DELLEA.

LOOKING UP

By S. G. RUBINOW

By S. G. RUBINOW

SACRAMENTO, June 8—(UP)—Wanted—a special dictator in Washington, D. C., clothed with extraordinary power, to censure the mountains of obsolete, junk governmental "copy" with which American newspapers are flooded daily and weekly.

As far as the writer can ascertain from the tonnage that comes across his desk, practically no "news" can be found in this barrage of official releases. Neither can the writer remember any time, including the war period, when the tonnage was so heavy.

Each morning the mail carrier staggers into my office and deposits his bag of mail. He repeats the performance three times a day. Most of the mail, by the large, consists of these governmental releases.

Many of them are designated specially as "important." Others are earmarked in other ways. Many of them, containing no news, carry the heads that would require an eight column banner. Others are so long they would have to be set up as serials, "to be continued next week."

Now, after all, newspapers are rather important institutions. They are chroniclers of what is happening right now; they are published to give readers, subscribers and advertisers the news of the day.

Newspaper space is too valuable to permit items lacking "news." Newspaper space is far too valuable to provide room for compositions, essays, ancient history, and a lot of other claptrap.

To make it even worse, the same items are released at the same time in a half a dozen different ways or more, or through several release channels. The result is a barrage of useless material, most of which is used to start the early morning fire in the back end of the shop.

If this performance were not so costly to the government and its taxpayers, it would really be funny. For lack of coordination and efficiency, the combined official press and "information" service of the federal government takes the cake.

Time and again, in this column, the writer has praised most highly the forward looking administration of President Roosevelt and his aids. No one has done so much in such a short period of time as has Roosevelt.

He has disregarded useless traditions; done away with a lot of waste and confusion; brushed aside stupid conventionalities; and has performed in a most remarkable manner. His honesty of action, sincerity of purpose, desire to serve, have never been approached, in the writer's opinion, in American history.

President Roosevelt can add to his accomplishments by straightening and coordinating the entire federal government press or public relations service.

Why Not Subcribe for the Nugget?

Nevada City High School To Graduate Its Largest Class

ABOVE— ONE AND TWO

—— THREE AND FOUR ——

—— FIVE AND SIX ——

—— SEVEN AND EIGHT ——

The largest class in the history of the Nevada City high school, will graduate with impressive commencement ceremonies in the Nevada City Theater Friday evening, June 16. There are 48 members of this class which has maintained a high average in scholarship and athletics throughout its high school career:

Above are pictures of each graduate. Reading from left to right they are as follows:

1. Phyllis Anderson, Wesley Barry, Angiolini Alaria, Neta Botting, Charles Barker, Francis Bobb
2. Ida Casey, Aldo Casci, Katherine Celio, Warren Chapman, Florence Cerro, Wm. Charronat
3. Gladys Cunningham, Edgar Cunningham, Beth Curnow, Thelma Davey, H. Davey, A. Davidson
4. Henrietta Glennon, Lionel Doyle, Neilen Hansen, Max Flindt, Phyllis Horn, John Hoffman
5. Ruth Parker, Gerald Hogan, Alice Peard, Esther Reader, Allan Joy, Ruth Rector,
6. Jessie Robbins, Elmer Oates, Alberta Robinson, Chester Peterson, Louis Schreiber, F. Reader
7. John Sbaffi, Rose Smart, Delbert Schiffner, Beth Steger, Bill Sharp, Earline Sutton
8. Carolyn Towle, Henry Toccalini, Dorothy Worthly, Bob Tucker, Gertrude Young, Gus Wasley

SQUIRRELS BANQUET ON NEW HATCHED TURKEYS

REDDING, June 8—(UP)—The ground squirrels in the Cottonwood district have developed expensive appetites, according to reports from ranch owners.

Apparently, the ranchers say, the rodents have become "fed up" on a grass and grain diet and gone in for turkey meat. One farmer reported the squirrels had carried off and eaten more than 100 baby turkeys.

While the squirrels are notorious as purloiners of eggs, this is the first time in many years they have taken to eating the turkeys themselves, the ranchers say.

A. A. Cass, mining man of San Francisco, was an over night visitor at the National hotel early this week. He is interested in mining property near Downieville and Alleghany.

Roger Pryor and John Harbison of Maxwell visited with the former's sister, Mrs. Ed Martine and husband, in Nevada City early this week.

Mrs Hazel Williams of Oakland is spending a short time in Nevada City visiting her mother, Mrs. Loren Williams, and other relatives.

Henry Jacobs, who recently purchased th eold Lopez property at the end of Park Avenue, is tearing down a larg ebarn on the place that was partly caved in from last winter's snow.

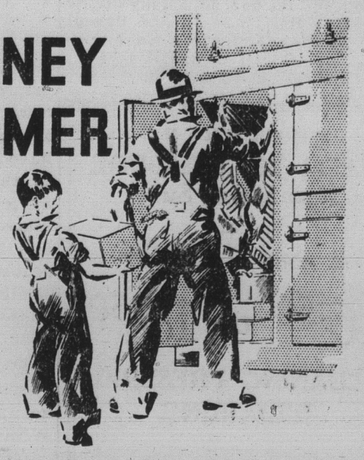
Personal

Frank Hoge of Palo Alto visited relatives in Nevada City last week end.

Mr. and Mrs. Ben Herbert of Marysville, visited with Mrs. Carl Schwartz last Sunday.

The many friends of George Walling will be pleased to learn that he has so far recovered from a recent serious illness that he has been able to take several auto rides with his friends.

SAVE MONEY THIS SUMMER with The Farm "35"

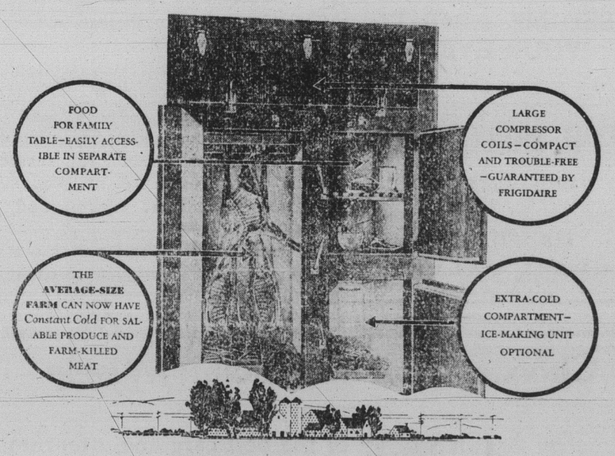


GOOD BUSINESS alone dictates what the farmer buys today. He is a shrewd, careful investor. He is a keen judge of *practical* values. And because he had special problems he wanted ELECTRICAL REFRIGERATION built to *his* requirements—a FARM REFRIGERATOR. Farmers who have long wanted adequate, uniform ELECTRIC REFRIGERATION are deciding it is just *good business* to have it.

Farm-killed meat, kept "cool" by old fashioned methods, may be a menace to health and is often without juice or flavor. Proper hanging eliminates wasteful trimming and improves texture and flavor. The FARM "35" provides ample room for sides and quarters at lowest cost per cubic foot. University designed models are also available up to 125 cubic feet.

With other produce too, safe, 50 degree CONSTANT COLD is necessary to prevent spoilage-waste. It is your best assurance of top prices for "extra fancy" perishables. It is your guarantee of food, *consistently* fresh and wholesome, for your family. The FARM "35" AUTOMATICALLY maintains the *right* food-preserving temperature—below the 50 degree danger line.

All this and much more you can expect from these *practical* FARM REFRIGERATORS. An investigation will convince you that they are a money-making, money-saving necessity. Sensible design and extra sturdy construction make them a life-time investment. Attractive terms may be arranged. Write or telephone the nearest P. G. and E. office or see your Frigidaire dealer.



FOOD FOR FAMILY TABLE—EASILY ACCESSIBLE IN SEPARATE COMPARTMENT
LARGE COMPRESSOR COILS—COMPACT AND TROUBLE-FREE—GUARANTEED BY FRIGIDAIRE
THE AVERAGE-SIZE FARM CAN NOW HAVE Constant Cold FOR SALABLE PRODUCE AND FARM-KILLED MEAT
EXTRA-COLD COMPARTMENT—ICE-MAKING UNIT OPTIONAL

A New Deal For Liver Sufferers

Don't be misled any longer. Calomel, salts, oils, mineral waters, laxative pills, herb teas, powders, etc., have no effect whatever on the liver. There are only two generally recognized substances which actually cause a sluggish liver to increase its production of bile. Sargon Soft Mass Pills contain both of them.

You can't feel well and strong unless your liver furnishes plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—Constipation, gas, sour stomach, headaches and nervousness follow.

Unless you have tried Sargon Soft Mass Pills you can have no idea of their effect—You feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly.

Only 60c for a full 30-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Georgia.—(adv.)

Our Correspondents

NORTH SAN JUAN
Mrs. F. M. HARRIS

NORTH SAN JUAN, June 6—The tourists will be glad to know that the Ridge road from San Juan to Alleghany is now open and in better shape than ever.

Mr. Kieffer and sister, Mrs. Mienert, of Long Beach, have been in town for several days after an absence of 44 years. So many changes have taken place in the community in this length of time that it was difficult to locate once familiar places. Both attended school here and found some of their former school mates. Their father, August Kieffer, had a blacksmith shop in those days which was across the road from the present home of Mrs. Lillian McCullough.

Miss Lackland of Phoenix, Arizona, is visiting her brother, Mr. William Lackland.

A number of people who spent the winter at Henry Huckins' camp ground have gone to Brandy City, Sierra county, where they are prospecting for gold. Among these are Mr. and Mrs. Palmer and family.

Mrs. Jones and Mrs. Sweetman of Loyalton, were renewing old acquantances some days ago. It is 61 years since these sisters moved away. Accompanying them were Mrs. Sweetman's two sons and the wife of one of them.

Johnny and Loretta Bartch, their aunt, Mrs. Kelley, and Mr. Jones of Moonshine, were in San Juan on Tuesday. Mrs. Kelley says that mining and gardening are the chief occupation of that locality at present and that the gardens are much behind hand this spring.

Mr. and Mrs. Harper and little son have recently moved into one of Mr. Huckin's cottages.

Mr. Fred Burnett of Oakland, is visiting his brother, W. R. Burnett and Mrs. Burnett, of Sweetland.

Among those who have motored to Alleghany to view the result of the disasterous fire of Wednesday a. m., were Mrs. Wodell and Mr. Leonard Wood.

Some people camping on the Miller place near the old Chinese cemetery, had an experience with petty thieves recently.

One of the party who sleeps in his car was wakened a night or two ago, by some one at the tool box. He saw a man bending over the box and grabbed him but the would-be-robber struck him on the head with a hammer and fled. Fortunately he did not tarry to take any of the tools with him.

NORTH BLOOMFIELD
By MRS. RALPH PENROSE

NORTH BLOOMFIELD, June 8—Mr. and Mrs. J. Hodges and son of Sacramento were visitors of Mr. and Mrs. C. C. Saus over the week end.

Mr. and Mrs. B. Brown an dtwo little daughters are visiting in Berkeley.

Mr. Forte is now working for Mr. Bankus on the Relief Hill ditch, near the Gold Leads mine.

Mrs. Alice Newton and daughter Margaret arrived in Bloomfield Sunday from Sacramento, they intend to make this their summer home.

The Bloomfield school has now finished its school term, and the children as usual are tickled to daeth for there holidays.

Dolly Jefferson, Chester Peterson, Jessie Robbins, Harry Jefferson and Phyllis Anderson all of Nevada City payed a visit to Bloomfield Sunday night. They all saw the large mountain lion, killed by the lion hunter in this vicinity.

Alvin Penrose is making a hurried trip to Sacramento and back today.

Mr. E. B. Dudley is attending the Supervisors Session in Nevada City.

Mr. Ralph Penrose of N. Bloomfield is in Sacramento, receving medical attention for an injured leg.

Mr. and Mrs. E. B. Dudley are having extensive improvements done on their home and yard. The work is being done by Frank Cummins.

M. A. Clark of Relief Hill and Mrs. Miller and baby of N. Bloomfield were to Grass Valley and back again Tuesday.

Mrs. Palph Penrose went to Sacramento Wednesday to see her husband.

BUILDING ACTIVITY DOUBLES IN 6 CITIES

SACRAMENTO, June 8—(UP)—Building activity throughout California is on the upward swing, according to a report issued by Carlos B. Huntington, state director of professional and vocational standards.

During the first four months of 1933, the report stated, building permits for construction valued at $6,101,460 were issued in nine key cities. This compared with $3,906,950 for the like period of 1932 in the same cities.

The figures, however, were still far below those of 1930 and 1931. Reports for the first four months of those years from the nine key cities showed permits totaling $11,319,500 and $7,298,180, respectively.

VACCINATION FOR HENS AIDS THE POULTRYMEN

SACRAMENTO, June 8—(UP)—One of modern civilization's greatest scientific triumphs, vaccination and immunization, eliminate heavy poultry losses in California.

Persistent losses in many sections of the state have been caused in poultry farms by infectious bronchitis. Once the disease attacks a flock it has appeared impossible to eradicate it.

Interesting experiments have been conducted, the outcome of which is still in doubt. However, the state department of agriculture believes that the genesis of the disease control has been discovered by vaccination.

Mr. and Mrs. Fred Miller of Grass Valley and Mrs. Henry Schroder of Nevada City motored to Dutch Flat Saturday to visit Mr. and Mrs. Miller's daughter, Mrs. Meyers and family.

M. Angiolini is spending a few days in Sacramento, where he went to consult a specialist in regard to his health.

MARRIAGE LAW ATTACKS FAIL

By MELVIN LORD

SACRAMENTO, June 8—(UP)—California, it would appear, is not entirely "one big happy family."

LORD

That there is an occasional rift is seen in reports of the Judicial Council of California which show there were 20,387 "domestic relations" cases filed in superior courts last year including 28 in Nevada county.

The legislature also took cognizance of the fact that clowds will blow across the marital horizon, but eventually accomplished very little in changing laws.

Several bills which would have reduced the one-year "wait" now required between the interlocutory and final decrees of divorce failed to get to first base as far as the lawmakers were concerned.

A similar fate also befell a measure to abolish the so-called "gin-marriage" law which requires a three-day delay between application for the issuance of a marriage license. Despite claims that this merely forced couples to get married in other states, most legislators felt it still was effective in stopping hasty, ill-advised marriages.

Another bill which proposed to solve the problem of scores of unwarranted "heart balm" cases failed to gain approval. This measure would have required plaintiff's seeking damages for breach of promise and similar accusations to post a bond in the sum sought by the court action.

One measure, however, which was successful, provides that alimony shall not be paid to a woman after she remarries except under certain circumstances where the alimony is actually needed for support of children.

"This bill," explained Senator J. McColl, Redding, author, "will prevent such a situation as one with which I was familiar. In this case the first husband was unemployed, yet he was supposed to pay alimony to his former wife who was married to a man earning a good salary."

SIXTEEN DOLLARS PER WEEK FOR COMFORT

SACRAMENTO, June 8—(UP)—Can you live comfortably and happily on $16 a week under the present economic set-up?

The Industrial Welfare Commission thinks one can and demonstrated its conviction by establishing $16 as the minimum weekly wage for experienced women and minors employed in California industry.

"This action," explained Timothy Reardon, director of the department of industrial relations, "was taken after receiving studies and cost of living reports of workers employed in the hotel and restaurant, manufacturing, laundry, mercantile and miscellaneous industries.

"Such very definite action is in keeping with the lead California has taken in safeguarding minimum wages for women and children.

TEN RULES TO END DEPRESSION

SACRAMENTO, June 8—(UP)—Admitting there is no panacea for curing the depression, Rolland A. Vandegrift, state director of finance believes there are 10 rules which, if followed, would point toward recovery by business and individuals. The rules:

1—Balance individual, business and government budgets. Recovery cannot come until most people balance their budgets.

2—Work our way, as individuals, out of this depression.

3—Get along on as little money as possible until obligations are met.

4—Those who have reserves must take advantage of bargains in investment of intrinsic values.

5—Eliminate waste in private and public business.

6—Observe strictly all obligations when able, and recognize all as future obligations so as to preserve private and business credit. This credit will be of great value when the upturn comes. A small payment on a large note preserves credit.

7—Credit institutions should encourage sound enterprise and be as liberal as possible with sound risks—there are mortgage loans today to be had which are as good as government bonds.

8—Cut costs and reinvest earnings and profits where returns are most promising—keep capital working.

9—Creditors should aid their borrowers in their enterprise, for they are mutually interested. Such encouragement is frequently the difference between success and failure.

10—Be hopeful, for we have numerous irrefutable examples that prove that many farmers are making money even with farm prices at the bottom; some merchants show good profits; some manufacturers are prospering; some banks are in the black—the marginal operators will perish or transfer to other activities; the successful ones are creating a back log for the foundation of real prosperity.

Mr. Stotesbury, mining engineer of note, from Nevada state, is staying at the Bret Harte Inn in Grass Valley.

"Nerves" "NERVES" "Nerves"

Dr. Miles' NERVINE *"Did the work"* says Miss Glivar *WHY DON'T YOU TRY IT?*
After more than three months of suffering from a nervous ailment, Miss Glivar used Dr. Miles' Nervine which gave her such splendid results that she wrote us an enthusiastic letter.
If you suffer from "Nerves." If you lie awake nights, start at sudden noises, tire easily, are cranky, blue and fidgety, your nerves are probably out of order.
Quiet and relax them with the same medicine that "did the work" for this Colorado girl.
Whether your "Nerves" have troubled you for hours or for years, you'll find this time-tested remedy effective.
At Drug Stores 25c and $1.00.

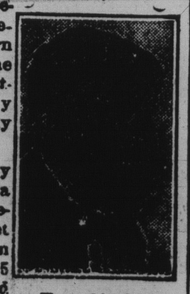
"FRIENDLY GARDEN" PROGRAMS FEATURE NEIGHBORLY VISITS

Backyard conversations between housewives went out of style along with the bustle and the pompadour, but the neighborly atmosphere of those old-fashioned "over the fence" exchanges is being happily revived in modern fashion by the radio club meetings in Mary Sears' Friendly Garden.



Tom Clarke

That's why many California women are beginning to set their alarm clocks for 8:15 a. m. to remind them of their date with Neighborly Mary, John, Tommy Lad and others of the family. Songs, poems, letters from club members and friendly tips about shopping bargains are a few of the features of the 15-minute meeting on the air every Tuesday, Wednesday, Thursday and Friday morning, over the following stations of the Don Lee-Columbia California network: KHJ Los Angeles, KFRC San Francisco, KGB San Diego, KDB Santa Barbara, KMJ Fresno, KWG Stockton, KFBK Sacramento, and KERN Bakersfield.

Sometimes there are distinguished guests present to give the most informal kind of talks, but much of the entertainment is supplied by Mary, herself, and John and Tommy Lad, who is Tom Clarke, a youthful baritone whose voice already has brought him wide acclaim. Jayo Rubanoff, pianist, and Clemence Gifford, a talented mezzo-soprano, also are heard on the programs.

LEGAL NOTICE

NOTICE OF TRUSTEE'S SALE

WHEREAS, default has been made in the payment of the indebtedness secured by, and in the performance of the covenants contained in, that certain Deed of Trust dated February 14, 1923, made, executed and delivered by JAMES F. DUNN, also known as J. F. Dunn, and ELLEN DUNN, his wife, as Trustors, to BANK OF ITALY, a corporation, as Trustee, to THE CALIFORNIA JOINT STOCK LAND BANK OF SAN FRANCISCO, a corporation Beneficiary, which Deed of Trust was recorded in the office of the recorder of the County of Nevada, State of California, on February 15, 1923, in Book 3 of Trust Deeds, at page 127 et seq., Nevada County Records; also recorded in the office of the recorder of the County of Placer, State of California, on March 3, 1923, in Book 195 of Deeds, at page 178, Records of Placer County; and

WHEREAS, the lawful owner and holder of said Deed of Trust and the debt thereby secured has applied to and directed the Trustee under said Deed of Trust in writing to execute the trust by said Deed of Trust created, and to make sale pursuant thereto; and

WHEREAS, Notice of Breach of the obligations of the Trustors has been recorded as is provided for by law, and more than three months have elapsed since the said recordation, and said Trustee deems it best to sell said premises and estate as a whole now remaining subject to said Deed of Trust in order to fulfill the purposes thereof.

NOW THEREFORE, NOTICE IS HERBY GIVEN that on Tuesday the 6th day of July, 1933, at the hour of 10 o'clock a. m., thereof, at the front door of the Nevada County Courthouse, situated in the City of Nevada City, County of Nevada, State of California, the BANK OF AMERICA NATIONAL TRUST AND SAVINGS ASSOCIATION, a national banking association, as Trustee, will, under and pursuant to the aforesaid Deed of Trust, sell at public auction to the highest bidder for cash in United States gold coin, the following described real property, mentioned in said Deed of Trust, situated in the Counties of Nevada and Placer, State of California, and more particularly described as follows, to-wit:

Southeast quarter (SE¼) of Section Twenty-four (24); East half (E½) of Northwest quarter (NW¼) and all of Northeast quarter (NE¼) of Section Thirty-six; Township Fiftenn (15) North, Range Eight (8) East. M. D. B. & M.

Lots Two (2) Three (3) and Four (4) of Southwest quarter (SW¼) of Section Eighteen (18); Lots Two (2) and Three (3) of Northwest quarter (NW¼) and South half (S½) of Lot One (1) and Lots Two (2) and Three (3) of Southwest quarter (SW¼) of Section Nineteen (19); South half (S½); South half (S½) of North half (N½); Northeast quarter (NE¼) of Northwest quarter (NW¼); West half (W½) of East half (E½) of North half (N½) of Northeast quarter (NE¼) and East half (E½) of West half (W½) of North half (N½) of Northeast quarter (NE¼) of Section Twenty-nine (29); East half (E½) of Southeast quarter (SE¼); lots one (1) Two (2) and Three (3) of Northwest quarter (NW¼); North half (N½) of Lots One (1) and Two (2) and all of Lot Three (3) of Southwest quarter (SW¼) of Section Thirty (30); Northeast quarter (NE¼), North half (N½) of Southeast quarter (SE¼); Southwest quarter (SW¼) of Southeast quarter (SE¼); South half (S½) of Lots One (1) and Two (2) of Northwest quarter (NW¼), Lot Three (3) of Northwest quarter (NW¼) and Lots One (1), Two (2) and Three (3) of Southwest quarter (SW¼) of Section Thirty-one; Southeast quarter (SE¼) of Northwest quarter (NW¼) and North half (N½) of Northeast quarter (NE¼) of Section Thirty-two (32); Township Fifteen (15) N. Range Nine (9) East M. D. B. & M.

ALSO all of those parcels of land situate in the County of Placer, State aforesaid and described as follows:

Lots One (1), Two (2), Four (4), Five (5), East half (E½) of Northeast quarter (NE¼) of Lot Eleven (11); North half (N½) and North half (N½) of South half (S½) of Lot Twelve (12); North half (N½) of West half (W½) and North half (N½) of South half (S½) of West half (W½) of Lot Thirteen (13); East half (E½) of Lot Twenty Four (24) and all of Lot Twenty-five (25) of Section Six (6); Township Fourteen North (14N) Range Ten (10) East M. D. B. & M.

EXCLUSIVE of portions in Count Roads and right of way in Pacifi Gas & Electric Co. and also exclusive of mining rights of J. M. Thoma or his successors in interest in and to South half (S½) of Lots One (1) and Two (2) of Southwest quarte (SW¼) of Section Nineteen (19) and North half (N½) of Lots One (1) and Two (2) and Lots Three (3) of Northwest quarter (NW¼) and Lot Three (3) of Southwest quarter (SW¼) of Section Thirty (30) Township Fifteen (15) North, Range Nine (9) East M. D. B. & M.

AND ALSO EXCEPTING the mineral below a plane 150 feet below the surface of North half (N½) of Northwest quarter (NW¼) of Section Nineteen (19), Township Fifteen North, Range Nine East with right to remove same without disturbing surface.

TOGETHER with all other rights of every kind and nature, however, evidenced, to the use of water, ditches and canals for the irrigation of said premises to which the trustors or said premises are now or may hereafter become entitled and also together with all shares or rights, whether represented by certificates of stock or otherwise, in any canal company or water user's association attached to said land for the benefit thereof, now owned or hereafter acquired by said trustors.

DATED: San Francisco, California, May 15, 1933.

ELECTRICAL EQUIPMENT FOR MCDONALD DAIRY

The McDonald Dairy ranch has just completed installing electrical equipment throughout its large plant. A short time ago a new commodious milk house was built. Into this fine plant, electric sterilizers, coolers and refrigerators have now been installed making this one of the most modern and sanitary plants in the state. Mr. McDonald reports that he finds a ready sale for all the milk he can produce.

American Heroines

By LOUISE M. COMSTOCK

Josephine Davis

FOR many years the Davis family of Gettysburg, Pa., preserved and proudly displayed a rusty little iron stove of ancient make. It was over this stove that Josephine Davis did her heroic bit in the famous Battle of Gettysburg.

It was on the first day of this decisive battle of the Civil war, when the Union army lost its stronghold on Seminary ridge and was forced to evacuate the town to General Lee. It is history that during the entire engagement only one citizen of the town was killed, the young woman Jennie Wade, whose little cottage, now a museum, still shows the hole by which the fatal shot entered, but throughout the whole three days' fighting soldiers of both armies, the blue and the gray, streamed through the streets, marching bravely into the fray, retreating, weary, wounded, and disappointed.

Josephine, alone in the Davis home, watched these men go past. Although her own men folks were fighting with the Southern troops, her heart was torn with sympathy for both sides alike. There was not much an eighteen-year-old-girl could do for them. But that little bit Josephine did. With the guns rumbling scarcely a mile away, Josephine built a vigorous fire in the little iron stove, gathered together all the flour in the house, about half a barrel, and set about baking it into crusty, delicious bread. When the warm loaves were out of the oven, she cut them into generous slices, spread them with molasses, set them out in pans, and placed them before the house for the hungry soldiers passing her door.

The news spread. Weary men, wounded, sometimes dying, stumbled up to her door for bread, and remained to be taken in, bandaged in torn sheets and towels, with such first aid as Josephine could devise. All day she worked, and part of the night, soothing, comforting. She converted into bandages every shred of cloth in the house.

When the guns were at last silent, and victory secured for the Union troops, seventeen dead were carried out of that little house and twice as many more wounded, well on their way to recovery, were taken away in ambulances to nearby hospitals.

"It was nothing," Josephine afterwards explained. "I always was a good baker!"

FRENCH CORRAL

MRS. KATE M. SULLIVAN

FRENCH CORRAL, June 7—So far, our June weather has been a continuation of May's and a very comfortable place at night is near the warming stove.

Cherries and cherries are ripe in this section and if North San Juan keeps up its past record ,the coming Cherry Carnival at that place should be a great success.

With the arrival of loads of lumber and machinery the prospect looks good for mining operations at the French Corral mine. We also hear good reports from the Boss mine in Sweetland.

Mr. and Mrs. Clayton Johnson of Alleghany, visited Mrs. Johnson's uncle and aunt, Mr. and Mrs W. E. Moulton. This week they came near losing their home in the recent conflagration at that historic old town.

C. Browning and E. Davis visited Nevada City last week.

Mrs. F. Miller returned to French Corral last Wednesday after spending several weeks in Sacramento, where she was under treatment for a serious illness.

Mr. and Mrs. Al Jaynes and little daughter spent the week end at the home of Mrs. Jaynes mother near Camptonville. Mr. Jaynes has quite recovered from a painful accident, when some pieces of broken rock flew into his eye.

Elinore Haslett, in company with some friends from Hammonton, attended the dance at Forest City last Saturday night.

Mr. and Mrs. E. A. May have returned to Sacramento after a short sojourn in French Corral.

Messrs. F. Miller, A. Browning and E. Dillon made a trip to You Bet Sunday and returned to that place Monday and will engage in mining operations there.

Mr. and Mrs. Adam Labour and little sons, and Mrs. Labour's sister, Laura, and mother, Mrs. K. Broyles, of Sacramento were Sunday visitors at their old home in this place.

Mr. and Mrs. Langdon of Sacramento dropped in on French Corral friends Sunday on their return trip from Alleghany. Mr. Langdon is on the staff of the Sacramento Bee.

H. Thomas of Birchville and Mr. Clyde of Alleghany had business in French Corral Sunday.

E. De Prati, our Civil War veteran left for Nevada City Tuesday after spending some time at his home in French Corral.

Miss Lucille Kneebone of Bridgeport has been visiting her friend, Miss Adeline Stockdell of this place.

Mrs. Lee Stockdell and her brother Cecil Hoffman, of Sacramento were visitors Tuesday and Wednesday. On their return trip they were accompained by Miss Adeline Stockdell.

Mrs. John Tognarelli and daughter, Catherine ,are to leave the 19th of June for a trip to Genova, Italy, where they will visit Mrs. Tognarelli's father, who is now almost 79 years of age. The expect to be gone about two months and their many friends wish for them a happy journey.

AGRI. DEPT. HEAD WARNS AGAINST TREE PESTS

SACRAMENTO, June 8—(UP)—A. A. Brock, California's able and energetic director of agriculture, has sounded a stern warning against a "penny wise-dollar foolish" policy in handling field and orchard pest control work.

It is false economy, Brock said, to cut down pest control appropriations. Ultimately the increase in pests would necessitate an even greater expenditure.

"The burden of such work is hard in times like these," Brock pointed out. "But this cost would be added to by introduction of new pests. Neglect of such work for only a short time reduces quantity and quality of fruit and damages trees."

Mr. and Mrs. Leonard Rockefeller and two daughters attended the circus in Colfax Thursday.

E. De Prati, Civil War veteran, was a Nevada City visitor Wednesday from French Corral.

CATTLE GOING TO MOUNTAINS

About 200 head of cattle passed through Nevada City early Tuesday morning on their way to summer range in the Tahoe National forest, where they will remain until snow flies in the fall.

Thimble Club Enjoys Afternoon at Cards

Champion Circle, No. 321, Neighbors of Woodcraft, Thimble Club met in the Native Sons hall Thursday afternoon.

After a business session cards were enjoyed for a few hours. High score was won by Della Dalton, and consolation by Anna Sullivan of Grass Valley.

Dainty refreshments were served at the close of the afternoon. The following committee acted as hostesses, Mrs. Martha Dillon, chairman, Mrs. Anna Scheemel, Mrs. Laura Coughlan all of Nevada City and Ruth Ajutila of Grass Valley.

A. M. HOLMES BUILDING ENGLISH TYPE HOUSE

Last week Coroner A. M. Holmes let a contract to Charles McCloud for the erection of an English type two story dwelling in the Lewis subdivision.

This pretty new home will be located about half way between Nevada City and Grass Valley on the main highway, just a few hundred yards north east of the Shaw fruit stand and will face south.

Within the last few days Stedger and Sons started the construction of a new home on the Johnson Nursery and florist property on West Broad street in Nevada City, for the owners, Mr. and Mrs. Brown.

This is to be a modern five room house with sun porch and all up-to-date furnishings.

BACCALAUREATE SERMON SUNDAY AT M. E. CHURCH

Children's Day will be celebrated Sunday at the Methodist church in this city. There will be Sunday school at 10 a. m., o'clock followed by a special children's service with appropriate music.

The evening service will be a union Baccalaureate service for the graduating class of the Nevada City high school with music by the combined choirs of the Episcopal and Methodist churches.

Mrs. J. L. Wolf will sing an anthem, accompanied by Mr. Marshall W. Geiselman. The Rev. H. H. Buskner will preach the Baccalaureate sermon. His subject will be "The Value of Vision."

Gold Flat Club Meets at Day Ranch

The regular meeting of the Gold Flat Thursday club was held in the grove on the Day ranch in the Gold Flat section yesterday afternoon.

There was a good attendance of members and all enjoyed a delicious picnic luncheon and a happy social time.

Roseville Garden Club Visits Nevada City

The Garden Club of Roseville held their picnic in the woods adjacent to town Thursday, June the 8th, and during their stay visited the gardens of Nevada City people.

It is the annual custom of the Roseville club to meet here and their admiraiton and appreciation of local gardens is an inspiration for their efforts in their own gardens.
